

IN THE CLAIMS:

Claim 1 (Currently amended) A boater's keychain, comprising:

a keychain; and

at least one planar boating information card connected to said keychain, said at least one planar boating information card having at least one side imprinted with boating rules and boating information, wherein said at least one planar boating information card includes a grommet through a portion of said at least one planar boating information card, and said keychain is threaded through said grommet.

Claim 2 (Currently amended) The boater's keychain of Claim 1, wherein said at least one planar boating information card is formed of a waterproof, buoyant sheet material.

Claim 3 (Previously presented) The boater's keychain of Claim 1, wherein said keychain comprises a closeable metal keychain.

Claim 4 (Currently amended) The boater's keychain of Claim 1, wherein said at least one planar boating information card is formed of a closed cell foam plastic sheet material.

Claim 5 (Currently amended) The boater's keychain of Claim 1, wherein said at least one information card comprises a plurality of planar boating information cards.

Claim 6 (Currently amended) The boater's keychain of Claim 5, wherein each of said planar boating information cards has two opposing sides imprinted with boating rules and boating information.

Claim 7 (Currently amended) The boater's keychain of Claim 5, wherein each of said plurality of planar boating information cards includes a grommet through a portion of said planar boating information cards, and said keychain comprises a closeable metal keychain threaded through said grommets to link said keychain and said plurality of planar boating information cards together.

Claim 8 (Currently amended) A boater's keychain, comprising:  
a keychain; and  
a plurality of planar boating information cards connected to said keychain, said plurality of planar boating information cards having at least one side imprinted with boating rules and boating information, wherein each of said plurality of planar boating information cards includes a grommet through a portion of said plurality of planar boating information cards, and said keychain is threaded through said grommets to link said keychain and said plurality of planar boating information cards together.

Claim 9 (Currently amended) The boater's keychain of Claim 8, wherein said plurality of planar boating information cards are formed of a waterproof, buoyant sheet material.

Claim 10 (Previously presented) The boater's keychain of Claim 8, wherein said keychain comprises a closeable metal keychain.

Claim 11 (Currently amended) The boater's keychain of Claim 8, wherein said plurality of planar boating information cards are formed of a closed cell foam neoprene sheet material.

Claim 12 (Currently amended) The boater's keychain of Claim 8, wherein each of said planar boating information cards has two opposing sides imprinted with boating rules and boating information.
